

Dear Sir / Madam,

I'll be honored to have an opportunity to discuss with you about the role of product manager.

I'm a CFA charterholder with 13 years of experience working at the intersection of commercial real estate and finance. I currently work as Senior Vice President of an asset management firm in Hong Kong, and used to explain and justify various corporate initiatives (entering a new market, disposal of assets, share buy-backs, etc.) to the board and senior management of listed companies. The key skills of communicating the business case, coordinating market research, modeling the risks and financial impacts are essential to strategy development and delivery.

I am fluent in English, Mandarin and Cantonese.

Hope I can have an opportunity to discuss with you further on the details and a chance to justify why I would be a good fit for the post.

Thanks,

Paul
