

Dear Sir / Madam,

I'm interested to work with your associate consultant to deliver to your client the analytics and technologies they need.

I'm a CFA charterholder with 13 years of experience working at the intersection of commercial real estate and finance. I currently work as Senior Vice President, and used to explain and justify various corporate initiatives (entering a new market, disposal of assets, share buy-backs, etc.) to the board and senior management. The key skills of communicating the business case, coordinating market research, modeling the risks and financial impacts are essential to strategy development and delivery.

I had recently been involved in fund raising for a private equity firm in Japan where the investee companies involves highly specialized manufacturing in China and Japan I am hoping to carry over some of those knowledge to help you.

I am fluent in English, Mandarin and Cantonese.

Hope I can have an opportunity to discuss with you further on the details and a chance to justify why I would be a good fit for the post.

Thanks,

Paul
